INDEX SEMINUM

2020

**PLZEŇ
2020**

**ZOOLOGICAL AND BOTANICAL GARDEN
OF THE CITY PLZEN
Pod Vinicemi 9, 301 00 Plzen
Czech Republic**

Telephone: +420/378038301
Fax: +420/378038302
E-mail: pes@plzen.eu

Area: 21,5 ha

Geographical location: Latitude: 49° 44' N
Longitude: 13°23' E
Altitude: 330 m

Annual average temperature: 7,4 °C
Highest annual temperature: 40 °C
Lowest annual temperature: - 27 °C
Annual rainfall: 512 mm

Director: Ing. Jiří Trávníček
Curator of Botany: Ing. Tomáš Peš

Seed collectors: Mgr. Václava Pešková, Radka Matulová, Šárka Sýkorová,
Petra Vonášková, Lenka Richterová, Michaela Sýkorová

1. **AMARANTHACEAE**
Chenopodium bonus-henricus L. AT-0-KL-2016/3868
(= *Blitum bonus-henricus* (L.) Rchb.)
BG Klagenfurt/ Austria, Kärnten, Zell/ Sele,
Koschuta/ Košuta, between Potoksattel and Wilze;
S exposed alpine grassland, alt. 1600 m,
N 46°26'56.8" E 14°26'16.3" [± 10 m],
coll. F. Schlatti, 28. 8. 2016

2. **AMARYLLIDACEAE**
Allium angulosum L. CZ-0-PLZEN-1722-13-10
Czech Republic, Moravia, N of Olomouc, Plané
loučky, coll. 2013, V. Rybka

3. *Allium angulosum* L. SK-0-PLZEN-1861-16-10
BG Bratislava/ Slovakia, Podunajská nížina, Štúrovo

4. *Allium flavum* L. ssp. *flavum* CZ-0-PLZEN-4118-99-10
Czech Republic, S Moravia, Mikulov,
coll. V. Pešková

5. *Allium roseum* L. var. *roseum* XX-0-PLZEN-2856-16-80
Nijssen Bulbs Heemstede

6. *Allium senescens* L. ssp. *montanum* (Fries) Holub CZ-0-PLZEN-1284-13-10
Czech Republic, S Moravia, Mohelno, rocky steppe,
coll. 7. 7. 2013

7. *Allium senescens* L. ssp. *montanum* (Fries) Holub CZ-0-PLZEN-2024-17-20
Czech Republic, Praha, Divoká Šárka, 50°05'45.3"N
14°19'20.5"E, coll. 13. 6. 2017, L. Pešová, T. Peš jr.

8. *Allium schoenoprasum* L. ssp. *orosiae* J. M. Monts. XX-0-PLZEN-2584-17-80
Nijssen Bulbs Heemstede

9. *Allium schoenoprasum* L. var. *alvareense* Hyl. SE-0-GB-2011-0131
BG Göteborg/ Sweden, Öland, Triborga, Stora
Alvaret. 2010-07-17, coll. Klara Strandå

10. *Allium sphaerocephalon* L. ES-0-B-1403479
BG Berlin-Dahlem/ Spain, Prov. Asturias, Picos de
Europa, Cares Valley, limestone, alt. 200 m,
coll. Ern et al. 3934

11. **APIACEAE**
Angelica archangelica L. DE-0-WURZB-2014-20-Z-10
BG Würzburg/ Germany, N Bayern, Lkrs. Würzburg,
Veitshöchheim, Mainufer, alt. 240 m, coll. G. Vogg,
27. 9. 2014

Please notice:

Complying with article 15 of the Convention on Biological Diversity (CBD, 1992), the Zoological and Botanical Garden of Plzen provides seeds and any other plant material only for botanical gardens and other scientific institutions using this material according to the CBD.

We are part of the **IPEN network** (International Plant Exchange Network) and can exchange material with other IPEN-members without further bi-lateral agreements. For a list of gardens currently registered with IPEN and for additional information, please refer to the BGCI website.

Non IPEN-members have to return the *Agreement on the supply of living plant material for non-commercial purposes leaving the International Plant Exchange Network*, which must be signed by authorized staff.

The IPEN number given with the seed material consists of four elements:

1. The first two characters are the international iso 3166-1-alpha-2-code of the country of origin ("XX" for unknown origin)
2. The next position is a digit: "1" if there exist special restriction to transfer, "0" if none
3. The next position is the Garden Code from which the IPEN number originates ("PLZEN" for our institution)
4. The rest consists of the accession number within the institution specified in the previous element.

The IPEN number must always stay attached to the accession and its descendants so that the origin of the material can always be traced back.

The seeds are collected from open-pollinated plants cultivated outdoors or in the greenhouses in the Zoological and Botanical Garden. Therefore, no guarantee can be given either on the purity or the viability.

The seeds with "W" are collected in the wild.

Agreement on the supply of living plant material¹ for non-commercial purposes leaving the International Plant Exchange Network (IPEN)

Against the background of the provisions and decisions of the Convention on Biological Diversity of 1992 (CBD) and in particular those on access to genetic resources and benefit-sharing, the garden is dedicated to promoting the conservation, sustainable use, and research of biological diversity. The garden therefore expects its partners in acquiring, maintaining, and transferring plant material to always act in accordance with the CBD and the Convention on the International Trade in Endangered Species (CITES).

The responsibility for legal handling of the plant material passes on to the recipient upon receipt of the material. The requested plant material will be supplied to the recipient only on the following conditions:

1. Based on this agreement, the plant material is supplied only for non-commercial use such as scientific study and educational purposes as well as environmental protection. Should the recipient at a later date intend a commercial use or a transfer for commercial use, the country of origin's prior informed consent (PIC) must be obtained in writing before the material is used or transferred. The recipient is responsible for ensuring an equitable sharing of benefits.
2. On receiving the plant material, the recipient endeavours to document the received plant material, its origin (country of origin, first receiving garden, "donor" of the plant material, year of collection) as well as the acquisition and transfer conditions in a comprehensible manner.
3. In the event that scientific publications are produced based on the supplied plant material, the recipient is obliged to indicate the origin of the material (the supplying garden and if known the country of origin) and to send these publications to the garden and to the country of origin without request.
4. On request, the garden will forward relevant information on the transfer of the plant material to the body charged with implementing the CBD.
5. The recipient may transfer the received plant material to third parties only under these terms and conditions and must document the transfer in a suitable manner.

I accept the above conditions.

Date, signature, recipient's name and address, stamp

¹ According to the CBD "genetic resources" means genetic material of actual or potential value. This definition covers both living and not living material. The Code of Conduct and the IPEN covers only the exchange of living plant material (living plants or parts of plants, diaspores) thus falling in the definition of genetic resources.
